

Field and Pasture Records

Office use only Received:

SECTION 1 - General Information

Complete this form for all fields under your management. Records for the past three years, plus the crops and inputs you are planning for the current season are required for each field. List **each field on a separate line** and provide the following information in the appropriate column.

Status:

- O - fields requested for organic certification
- T - fields in transition to organic production
- C - fields managed conventionally

Inputs:

List all materials that have been applied to the area such as materials used for pest control, disease control, or fertilizer (for example, manure). Include the exact date the last prohibited input was applied. Do not leave any sections blank (for example, if no inputs were/are used, write "none"). Also list each input on the *Materials Used* form.

Keep copies of this form for your records..
