

Welcome to the Dashboard

Welcome to the New and Improved PCO Client Portal!

We are so excited to introduce to you the new and improved PCO client portal! Through our Core Values, we recognize the interdependent relationships between all our stakeholders: certified clients, supporters and members, PCO staff and contractors, partner organizations, and the community and environment.

This portal has been designed with our core values and mission in mind. You will navigate comprehensively through your certification documents with this portal and in the future, be able to easily submit paperwork. On the top horizontal banner, you'll be able to navigate through various parts of your file with the information we have on file in real time. We look forward to serving you better with this improved technology.

Terms Defined:

1. Self assessment - where you will submit documentation as requested (*currently under development and will be launching later this year*)
2. Audit Orders - your inspections (audits) will populate here
3. Findings - issues of concern that need to be addressed as directed on your certification report and other compliance communications
4. Certificates - your certificate may not yet populate here but will as they are created moving forward throughout this review cycle
