

## Herd List Instructions

For each animal include the following:

1. Animal identification information and birth date.
2. Slaughter Eligibility: Animals that have been transitioned or treated with a prohibited parasiticide may be eligible for organic status but are not eligible as organic slaughter stock.
3. OPT Grass-Fed or other livestock program status, if applicable.
4. Source of the animal: Indicate whether the animal was born on farm or purchased. This information should correspond with animal purchase records.
5. Reason Slaughter Status was Removed: If a parasiticide was used the date and specific material used should be noted in your Herd Health Records.
6. Comments may include information regarding visual identification such as colored ear tags or notched ear tags, or other notes you wish to capture.
7. Reason an animal was removed from the farm, as well as the date removed. This information should correspond with medical records, cull records, and/or sales records.

See example below.
