

Expedited Certification Request Form

PCO offers a nonrefundable expedited certification service. **Applications or updates requiring inspection prior to approval (i.e. new land, facilities, scopes, etc.) received less than 60 days prior to the requested approval date must be expedited.** While expedited service does not guarantee approval by a specified date, it provides the following services:

- Application and updated certification information will receive expedited attention for initial review
- Inspection will receive prioritized attention for assignment
- The inspection report will be submitted within five (5) business days of the Exit Interview
- PCO will review the inspection report within five (5) business days and identify any outstanding issue to grant certification

This form and complete information, as described below, must be provided when submitting an expedited request. PCO will evaluate the request for expedited services and communicate our administrative capacity to accept the request. Payment of the expedited fee may be submitted with the request, or it will be billed to your operation if the request is accepted. Payment of expedited fees must be received before expedited services begin. See the PCO Certification Fee Schedule for details on expedited fees. Delays in submitting complete information or payment will delay PCO's ability to expedite your request.

Today's Date:

Name of the PCO Applicant or Certified Operation:

File Number (NOP ID) for certified operations: 821000

1. Description of request:

2. Approval requested by (provide a date):

3. Check the areas below that apply to your expedited request and submit the following information and documentation associated with each section:

I understand that:

- All information outlined above must be submitted before my request can be evaluated.
- Expedited fees must be paid in order for expedited services to begin.
- Expedited processing does not guarantee approval by a certain date.
- Success of expedited services is affected by my ability to comply with the National to Organic Program and submit timely responses to requests for information.
- Timelines for determining compliance of Inputs that have not been previously reviewed by PCO fall outside of PCO's control due information that needs to be provided by the Input manufacturer.
